MESSAGE

1. It is heartening to note that Cancer Care India as the National Apex Body of leading Cancer Support Gps in India has been performing a yeoman task in creating a common platform and uniting the efforts to combat the growing menace of cancer at the national and international level.
2. 'Nationwide Cancer Awareness Programme' - a partnership between Cancer Care India (CACI) and National Cadet Corps (NCC) has been an excellent forum in promoting awareness about cancer among the youth of the country.
3. I wish Cancer Care India greater laurels and success in their future endeavours.

JAI HIND

A Chakravarty, VSM
Lt Gen
DG NCC
